DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 47 is rejected under 35 U.S.C. 103(a) as being unpatentable over Freeman(WO95/03408) and Short(WO91/16427) and Stemmer (Biotechnology).

Claim 47 is prima facie obvious over the combined teachings of Freeman and Short and Stemmer as set forth in the Board of Patent Appeals Memo in support of claim 47 rejection. See pages 2-27 of the attached Memo.
